

What is claimed is:

1. A device for scenting a fishing lure with a scent,
comprising:

5 a body for receiving said scent; and
means for fastening said body to said fishing lure.

2. The device of Claim 1, wherein said body comprises
absorbent material.

10 3. The device of Claim 1, wherein said body is a scent
permeable container.

15 4. A fish scent device for a fishing lure, comprising:
a body of absorbent material; and
a means for fastening said body to said fishing lure.

5. The device of Claim 4, wherein said body is disk shaped.

20 6. The device of Claim 4, wherein said means for fastening
includes an aperture in said body.

7. The device of Claim 6, wherein said means for fastening further includes a slot in said body.

8. The device of Claim 4, wherein said body is selectively
5 removably securable to said lure via said means for fastening.

9. The device of Claim 4, wherein said body is conically shaped.

10. The device of Claim 4, wherein said body is shaped as a
10 rectangular strip.

11. The device of Claim 4, said means for fastening includes
a wire.

12. The device of Claim 4, wherein said body is comprised of
15 at least one spheroid.

13. The device of Claim 4, wherein said means for fastening
20 includes a line.

14. A fishing lure, comprising:

a main body portion having a front end and a back end; and

a scent body attached to said lure.

15. The lure of Claim 14 further comprising a skirt of hair-like bristles mounted on said main body portion, said scent body
5 being encircled by said skirt.

16. The lure of Claim 15, wherein said scent body receives a fish scent and prevents said bristles from obtaining said fish scent thereon.

10
17. The lure of Claim 14, wherein said scent body is shaped to assist said bristles to assume a conical shape.
